-----

Highjoule delivers fully customizable energy solutions including foldable PV containers, integrated PV+storage systems, hybrid PV/storage/diesel cabinets, and mobile wind-solar units for ...

Modern lithium battery systems have become a game-changer for Canadian farmers looking to maximize their solar-powered farm operations. These advanced storage ...

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery ...

Three-phase storage system from 10 to 40 kWh with 10 kW hybrid inverter. Instant backup, modular LiFePO4 batteries and smart control.

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada ...

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best ...

Introducing our powerful 10kW solar system paired with a massive 10kWh lithium-ion battery storage, setting a new standard for sustainable energy ...

Introducing our powerful 10kW solar system paired with a massive 10kWh lithium-ion battery storage, setting a new standard for sustainable energy solutions.

Modern lithium battery systems have become a game-changer for Canadian farmers looking to maximize their solar-powered ...

We have deployed Solar Power Container units at three of our mines and the results have been outstanding. The ease of transportation and short installation time saved us weeks of downtime.

Project: 10kW Hybrid Inverter + 30kWh LiFePO4 Battery System. A 200-acre dairy farm in rural Ontario, Canada needed to reduce escalating electricity costs and ensure backup power for ...
