Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Lithium battery storage can provide reduced grid power consumption during peak periods, thereby reducing electricity bills. In addition IQUPS can ...

Americase designs each lithium battery storage container to perform under extreme conditions, providing unmatched thermal protection, shock resistance, and modular scalability.

Lithium-ion battery energy storage systems contain advanced lithium iron phosphate battery modules, BMS, and fuse switches as DC short circuit ...

We combine high energy density batteries, power conversion and control systems in an upgraded shipping container package. Lithium batteries are CATL brand, whose LFP chemistry packs 1 ...

The energy storage system is essentially a straightforward plug-and-play system which consists of a lithium LiFePO4 battery pack, a lithium solar charge controller, and an inverter for the ...

Feature highlights: The GEB Factory 13400 3.7V rechargeable lithium-ion battery offers a nominal capacity range of 300mAh to 550mAh, with a compact size of 13*40mm and supports fast ...

Feature highlights: The GEB Factory 13400 3.7V ...

We combine high energy density batteries, power conversion and control systems in an upgraded shipping container package. Lithium batteries are ...
