-----

Recently, it was learned that the excavation of the underground gas storage cavern at the 300MW advanced compressed air energy storage national demonstration power ...

Tesla has signed its first deal to build a grid-scale battery power plant in China amid a strained trading relationship between Beijing and Washington.

An ambitious project for the construction of the first storage hydropower plants in Central Asia will be implemented in Uzbekistan. This event marks an important step towards ...

The energy storage station of Uzbekistan's Tashkent Solar Energy Storage Project, the largest electrochemical energy storage facility in Central Asia, was successfully ...

This marks the formal commencement of equipment installation and system integration for Central Asia's largest energy storage station under the Project, paving the way ...

Tianhe Energy Storage Technology Co., Ltd. has made significant breakthroughs in the energy storage market in the Asia Pacific region. As of July 2025, the total scale of its large ...

Recently, it was learned that the excavation of the underground gas storage cavern at the 300MW advanced compressed air ...

Construct renewable power stations within user-side systems, incremental distribution networks, microgrids, or park-level integrated energy systems (generation-grid-load-storage) to supply...

As we barrel toward 2025, North Asia's energy storage landscape is evolving faster than a viral TikTok dance.

Whether it's China's 800kV ultra-high voltage storage ...

Asia's nuclear energy sector entered 2025 with unprecedented momentum, transforming the region into the world's fastest-expanding hub for commercial nuclear ...

Tianhe Energy Storage Technology Co., Ltd. has made significant breakthroughs in the energy storage market in the Asia Pacific ...

The policy and regulatory roadmap is aimed at pushing China's installed base of large-scale energy storage - primarily lithium-ion ...
