Liquid Cooling Technology offers a far more effective and precise method of thermal management. By circulating a specialized coolant through channels integrated within or ...

Our electronic cabinet cooler is designed for use with a wide range of enclosures and transit cases. Models are available for both indoor and outdoor use in DC power configurations.

With 83% of new battery installations occurring in tropical regions, the industry must embrace multi-stage cooling strategies that combine immersion cooling with ...

Our newly launched liquid cooling energy storage system represents the culmination of 15 years" expertise in lithium battery storage ...

Based on market demand, we have developed two different liquid cooling solutions specially designed for Li-ion Battery Energy Storage Outdoor Cabinets: Both solutions safely operate in ...

Our newly launched liquid cooling energy storage system represents the culmination of 15 years" expertise in lithium battery storage innovation. This liquid cooling ...

A specialized enclosure air conditioner from Kooltronic can help extend the lifespan of battery energy storage systems and improve the efficiency and reliability of associated electronic ...

Thanks to its high energy density design, eFlex maximizes the energy stored per unit of space, drastically reducing land and construction costs.

Ranging from 208kWh to 418kWh, each BESS cabinet features liquid cooling for precise temperature control, integrated fire protection, modular BMS architecture, and long-lifespan ...

Battery cabinet cooling unit
