---

From the 1st of January 2023, the Berlin Solar Ordinance mandates the installation of rooftop solar panels on all non-public construction projects in Berlin. In addition to new builds, existing ...

At the end of 2023, Berlin counted over 25,000 solar systems with more than 10,000 newly installed units in the past year - almost a tripling compared to the previous year. These ...

At a Berlin trade fair for sustainability, a new gadget caught Waltraud Berg's eye -- a solar panel small enough to be easily installed ...

In order to accelerate the energy transition, Berlin, Germany launched the SolarPLUS Program in 2022. As a core part of the SolarCity strategy, it aims to promote the installation of solar ...

The use of solar panel systems in Berlin is growing as more homeowners look for ways to reduce energy costs and rely less on traditional power sources. These systems convert sunlight into ...

At a Berlin trade fair for sustainability, a new gadget caught Waltraud Berg's eye -- a solar panel small enough to be easily installed on the side of a balcony and then plugged ...

Berlin aims to become climate-neutral by 2045. To achieve this goal, the SolarPLUS program has been providing support since February 2023, offering 500 EUR to Berlin residents who want to ...

Compared to solar thermal energy, there are far more photovoltaic systems registered in Berlin. As of July 7, 2023, 20,985 systems were in place, ...

Berlin's SolarPLUS program, managed by IBB Business Team GmbH, is designed to promote rooftop solar installation and reduce grid dependency. Unlike previous incentives, it ...

The main thing that differentiates solar balconies from rooftop solar is that they're a much smaller system. Essentially, the tech consists of one or two panels plugged into an ...

Operation, expansion, optimization: Our electricity grid is the main artery of the energy transition in Berlin. For example, we connect thousands of PV systems to our grid every year. We are ...

Compared to solar thermal energy, there are far more photovoltaic systems registered in Berlin. As of July 7, 2023, 20,985 systems were in place, with a total installed capacity of around 230 ...
