GridStor, a leader in utility-scale battery energy storage systems, has announced the acquisition of a 200 MW / 800 MWh battery storage project in Oklahoma from Black ...

Founded in 2021, BMES was established to bring reliable, emissions-free energy storage capacity to the electric grid to enhance system reliability and enable greater reliance on renewable ...

PORTLAND, Ore. - January 16, 2025 - GridStor, a developer and operator of utility-scale battery energy storage systems, announced today that it has acquired a battery storage project in ...

With about 10 employees, Black Mountain Energy Storage acquires land, secures permits and handles early planning before ...

The gen-tie line would connect the 100-megawatt photovoltaic Black Mountain Solar project and 50-megawatt battery energy storage system located on private lands to the ...

With about 10 employees, Black Mountain Energy Storage acquires land, secures permits and handles early planning before bringing in an investor to fund the project.

GridStor has acquired a battery storage project in Oklahoma, totaling 200 MW / 800 MWh to be developed in two phases, from Black Mountain Energy Storage (BMES).

Developer Black Mountain Energy Storage has won approval from the City of Milwaukee for a battery storage project which will be the biggest in the US state of Wisconsin so far.

Case studies from Black Mountain Energy demonstrate how our energy storage solutions operate in various
