Where can I get a circuit breaker installation & repair in Sydney?

MrSparky's licensed and experienced electricians provide fast,safe circuit breaker installation and repairs in Sydney. Book online today!

How does a circuit breaker function?

A circuit breaker is an electrical safety device that automatically interrupts the flow of electricitywhen a fault or overload occurs in a circuit. It works by using a bimetallic strip or electromagnetic mechanism to detect excessive current.

Can a circuit breaker be replaced?

Yes,a circuit breaker can be replaced,but it must be done by a licensed electrician. Electrical work requires expertise to ensure proper installation,wiring,and safety.

Why is my circuit breaker tripping frequently?

If you're experiencing frequent trippingof your circuit breaker,along with other issues like burnt smells,buzzing sounds,or flickering lights,it could be due to overloading,short circuits,faulty breakers,loose connections,or wiring problems. Contact Mr. Sparky Electrical Services for an inspection to address the issue.
