-----

These developments come on the heels of Bulgaria's first renewable energy auction held in late 2024, where more than 3 GW of generation and 1.176 GW of storage ...

storage is hindering Bulgaria in the development of an energy storage market. Furthermore, Bulgaria's energy legislation and grid codes have been historically written with thermal plants ...

Transformation of AES Galabovo into a large-scale energy storage facility using proven technology implemented in concentrated solar power plants (CSP) using molten salts

The first group had a contracted power generation capacity of 435 MW and energy storage capacity of 176 MW, while the second group had a power generation capacity of 2.66 ...

NEK intends to invest in two floating solar power and two pumped storage hydropower plants and battery energy storage projects.

Signed on July 28, 2025, in Sofia, the deal marks a major step in energy transition for Southeastern Europe, combining SUNOTEC's expertise in ...

In 2024, GSL ENERGY successfully installed a 7.45MWh industrial-grade BESS energy storage battery system in Bulgaria, integrated with solar photovoltaic power generation, ...

In 2024, GSL ENERGY successfully installed a 7.45MWh industrial-grade BESS energy storage battery system in Bulgaria, ...

This project uses SERMATEC's self-developed EMS system, integrating PV power generation to achieve

self-consumption of solar and energy storage. The EMS not only stores ...

Sunotec and Sungrow have signed a strategic agreement to install 2.4 GWh of battery energy storage systems (BESS) across several solar projects in Bulgaria and other ...

Commissioned, delivered, and installed in just 12 days by a five person crew, Sigenergy's innovative SigenStack system at Malko Tarnovo, Bulgaria, highlights how next ...

Signed on July 28, 2025, in Sofia, the deal marks a major step in energy transition for Southeastern Europe, combining SUNOTEC's expertise in solar infrastructure with Sungrow's ...
