The Cairo Metro flywheel energy storage project isn't just engineering porn--it's a game-changer for 4 million daily riders. In this deep dive, we'll explore how ancient ingenuity meets cutting ...

Our Battery Energy Storage System (BESS) can be operated under on-grid and Off-grid operation mode. The BESS system is controlled to cut off the grid connection within 10 seconds and ...

It's a scorching afternoon in Cairo, and your air conditioner suddenly shuts off. Why? A grid overload. Now imagine a city where homes and businesses don't rely on shaky power lines. ...

Our Battery Energy Storage System (BESS) can be operated under on-grid and Off-grid operation mode. The BESS system is controlled to cut off the ...

In March 2025, Cairo's subway system ditched diesel generators for a solar+storage microgrid: 2,500 Tesla Megapacks along Line 3 stations. Result: 40% lower ...

Imagine if Cairo's metro system could store braking energy - our flywheel prototype at Helwan Station recovers 18% of deceleration power. For desert conditions, hybrid systems combining ...

Each system integrates solar PV, battery storage, and optional backup generation in a modular, pre-engineered platform that is scalable for projects ranging from 5kW to 5MW+.

CAIRO - 3 December 2023: Norway's Scatec and the Egyptian Electricity Holding Company (EEHC) have signed a cooperation agreement for the first a solar and battery storage project ...

Ancient Egyptians stored grain for lean years - modern Cairo stores electrons for cloudy days. The city's

pumped hydroelectric storage projects near Aswan demonstrate this ...

As we approach Q4 2025, Cairo Metro plans to integrate solar-powered flywheel charging stations. This hybrid approach could potentially decouple 65% of operations from the national ...

Each system integrates solar PV, battery storage, and optional backup generation in a modular, pre-engineered platform that is scalable for ...
