---

Vena Energy has begun construction of a 408 MWh battery energy storage system in Tailem Bend, marking a new phase in the deployment of its infrastructure in Australia.

Developer Atlas Renewable Energy has inaugurated the 800 MWh battery energy storage system (BESS) plant in Mar#237;a Elena commune, in the Antofagasta region.

In Chile's north, Spanish company Grenergy Renovables is developing a massive 4.1 gigawatt hour (GWh) storage facility. And new data shows the country already has 954MW ...

In Chile's north, Spanish company Grenergy Renovables is developing a massive 4.1 gigawatt hour (GWh) storage facility. And new ...

To address these issues, two major developments are planned -- the large-scale deployment of battery storage and the construction of the 3 GW Kimal-Lo Aguirre transmission line.

It is reported that this solar + storage project, known as Quillagua, includes 221MW of solar photovoltaic capacity and a 1.2GWh battery energy storage system, capable of ...

The Quillagua solar-plus-storage installation, located in Chile's Antofagasta region, is a 221-MW solar photovoltaic plant with 1.2 GWh of ...

Zelestra's PPA with Abastible for a 220 MWdc solar and 1 GWh battery storage project is a major step toward Chile's clean energy transition. Its implementation faces various ...

Partnering with Chilean solar developer Traves#237;a Solar, Canadian Solar will supply an impressive 912 MWh energy storage system to be seamlessly integrated with the 600 MWp ...

Explore how Chile is advancing its clean energy transition with significant developments in renewable energy and battery storage.

The Quillagua solar-plus-storage installation, located in Chile's Antofagasta region, is a 221-MW solar photovoltaic plant with 1.2 GWh of battery energy storage.
