-----

Smart HelSys system is a compact and intelligent power system, it can house up to 3 rectifiers of 1kW and 1 Hel-SC501 controller. Integrated DC ...

The modular 48v dc telecom rectifier for outdoor base stations, with its plug-and-play design and standardized shelves, sets a new standard for efficiency, reliability, and ...

These modules convert alternating current (AC) into direct current (DC), providing reliable power to telecom equipment such as base stations, data centers, and edge computing nodes.

UNA Digital's rectifiers have advanced control and monitoring functions that enhance operational convenience. It utilizes an optimal power control algorithm to maximize power efficiency and ...

You rely on telecom base stations for communication, especially when severe weather threatens power lines. Rectifier modules play a vital role in keeping these stations ...

Highly integrated with rack DC power, rectifier module, MPPT converter module, inverter module and monitoring systems, our telecom power ...

Highly integrated with rack DC power, rectifier module, MPPT converter module, inverter module and monitoring systems, our telecom power solutions can offer stable -48VDC power supply to ...

Individual rectifier modules with an output of 2000 W are available for creating complete power supply systems. The 19" 1H carrier can accommodate either five 48 V / 2000 W rectifier ...

HW S4875G1 is a 48V/75A high-efficiency DC-DC power module designed for communication and

photovoltaic energy storage. It has a peak conversion efficiency of 98.2% and an MPPT ...

Smart HelSys system is a compact and intelligent power system, it can house up to 3 rectifiers of 1kW and 1 Hel-SC501 controller. Integrated DC system capability with controller and ...

The integrated high-efficiency rectifier module ensures stable conversion of AC power into the DC power required by the equipment. When power is interrupted, the built-in ...

These products integrate the latest energy management technologies and environmentally friendly materials, aiming to promote the green transformation of communication networks ...
