-----  
Is a 40 ft container a good value?

They are graded as Cargo Worthy, Windwater Tight or As Is. As previously mentioned, Container Management, Inc. never sells As-Is condition containers. As a general rule of thumb, a used 40-foot standard container will be priced around 30% more than a used 20-foot container, of the same condition.

What size shipping container do I Need?

Choosing the right size is critical as it impacts both cost and usability. The 20-foot,40-foot,and 40-foot High Cube containers are the most common sizes for shipping containers that are to be used for export shipment or for storage. Both sizes are large enough to hold a substantial amount of freight and fit into loading slots on container ships.

What is a used shipping container condition rating?

Used container condition ratings include Cargo Worthy(CW),Wind &Watertight (WWT),or As-is. Here's a breakdown of the cost for used shipping containers: CW containers can be certified for export shipping,meaning they can withstand the rigors of sea travel,and all of the major steamship lines will accept them for transit on their ships.

What is a used container?

This guarantees cleanliness and structural integrity, which makes them perfect for transforming into homes or offices. Used containers have been used in international container shipping for an average of 18 to 22 years. They are graded as Cargo Worthy, Windwater Tight or As Is.

This system is engineered for performance and durability. With 500KW of power and a massive 2150kWh of storage, it ensures stable energy supply during peak usage or grid outages. Its all ...
