Why is Hitachi energy investing 1.1 billion CZK in Brno?

Hitachi Energy is investing over 1.1 billion CZK (approximately \$47 million USD) to expand its High Voltage Products factory in Brno, Czech Republic, marking a significant step in the company's global strategy to support the clean energy transition.

Is the Czech Republic ready for pumped-storage hydroelectric power plants?

Bulk energy storage is currently dominated by hydroelectric dams, both conventional as well as pumped. There are six localities considered for new pumped-storage hydroelectric power plants in the Czech Republic but public acceptance presents a challenge. Front-of-meter installations in the Czech Republic are mired in regulations.

Why are Czech businesses investing in renewable projects without subsidies?

The subsidy increases to cover up to 75% of costs for community projects. But what we noticed at Wattstor is that Czech businesses are investing in renewable projects even in the absence of subsidies, because they have realised the strong business case for generating clean energy on site.

Why is Hitachi launching a switchgear factory in Brno?

" As the global high-voltage switchgear market is expected to grow by 140 percent, reaching \$60 billion by 2050, the Brno facility is central to Hitachi Energy's strategy to help integrated renewables and improve grid reliability. For employees at the Brno factory, the announcement of the modernization and expansion is cause for excitement.

Leading Czech manufacturers of advanced Li-Ion batteries (OIG Power, Fitcraft, GWL Power, A123 Systems, EV Battery, HE3DA /Magna Energy Storage) successfully ...

We are a subsidiary of APS Energia S.A., a major manufacturer of backup power supply systems for the conventional and nuclear power, heating, oil and gas industry, defence, transport and ...

S-Power is a prominent Czech company that specializes in rooftop photovoltaic systems and electricity storage

solutions, highlighting their expertise in solar energy.

What is a containerized energy storage system?The Containerized energy storage system refers to large lithium energy storage systems installed in sturdy, portable shipping containers, which ...

As the Czech Republic accelerates its transition to clean energy, the Brno Wind and Solar Energy Storage Project stands as a landmark initiative. This article explores how cutting-edge battery ...
