Maison Rive Gauche is a single-family residence on the Dilido Islands in Miami Beach. Taking advantage of downtown views and its waterfront access, its design is focused on the full ...

STRANG is a Miami-based design firm renowned for advancing the principles of Environmental Modernism in extraordinary locations around the world. This concept, dubbed by the firm, ...

This paper introduces a single-stage solar inverter design that seamlessly integrates battery-based energy storage for both on-grid and off-grid scenarios. The

Key design considerations are explored, including the selection of suitable topologies such as diode-clamped, flying capacitor, and cascaded H-bridge inverters, each evaluated based on ...

The exterior of the house received new landscaping, a more intimate courtyard design, and the addition of a lap pool, something always hoped for by Gene Leedy, but realized until today.

Nonetheless, the Rock House masterfully blends these disparate influences together to create an unexpected, yet convincing, design solution. The dense and riotous tropical landscape of ...

The Powerwall 3 integrated inverter architecture offers two key features that improve site design flexibility. These features provide power optimisation and flexibility benefits that are better than ...

A comparison of the features of each configuration is provided, followed by a detailed description. Each stage of proposed architecture is based on GaN technology to achieve high power ...

As the energy steward of the off-grid system, the energy storage inverter control integrated machine provides a
