**Is Morocco ready for a 5G network?**

The Government of Morocco is currently conducting international studies to better understand international safety and implementation standards and benchmarks before deploying Morocco's 5G network. Morocco's National Telecommunications Regulatory Agency (ANRT) expects to conduct its 5G spectrum auction by the end of 2023 or beginning of 2024.

**Will Morocco launch 5G in 2023?**

The general guidelines note for the development of the telecom sector, adopted by the National Agency for Telecommunications Regulation (ANRT) in 2019, specified conditions for the launch of 5G in Morocco in 2023. Morocco is still in the 5G evaluation, testing and trial stage, leaving the launch postponed to a later date.

**How many 5G base stations will India have by 2025?**

The country has set an ambitious goal of deploying over 500,000 5G base stations by 2025, a target driven by telecom giants like Reliance Jio and Bharti Airtel. The Indian government has actively supported 5G expansion, conducting large-scale spectrum auctions and offering incentives for infrastructure development.

**How many 4G subscribers are there in Morocco?**

Regarding the number of 4G mobile subscribers, a recent report from ANRT shows an increase of more than 30 percent to approximately 20.5 million. Morocco Number of Internet Subscribers data was reported at 35,574,000.000 Unit in December 2022. and an internet penetration rate of 88.1 percent,.
