Why choose Ek generator enclosures?

In times when backup power cannot fail, EK provides durable and reliable enclosures to keep you running. Our state-of-the-art production facilities allow customers to choose from standard generator sets or work with our engineering and manufacturing teams to build a customized enclosure to their unique specifications.

What are Ek Power Products?

Our EK Power Products division specializes in the design and build of custom weatherproof and sound attenuated generator enclosures.

What is a containerized generator enclosure?

Our containerized generator enclosures are built to be highly mobile, allowing you to easily transport and relocate your generator equipment as needed. The modular design enables quick assembly and disassembly, making it an excellent choice for temporary power needs or projects requiring frequent relocation.

What is Ek's Power Products Division?

EK's Power Products division custom designs single and multi-unit projects for data centers, municipalities, sports complexes, infrastructure facilities, health care facilities, and more.

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application ...

Each solar-powered shipping container generator is transportable, securable, and can be fully customized to your specific needs, including hybrid and microgrid compatibility.

Discover our range of solar generator containers, perfect for reliable energy storage and backup power. Shop customized solutions for residential and commercial use.

Our EK Power Products division specializes in the design and build of custom weatherproof and sound attenuated generator enclosures that eliminate noise pollution and keep the elements at ...

EK-SG-R01 is a large outdoor base station with large capacity and modular design. This series of products can integrate photovoltaic and wind clean energy, energy storage batteries, and ...

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ...

Our full line of containers and trailers are specifically designed to accommodate the safe and efficient transport and storage of power generation equipment. Choose from 20', 40', and 45' ...

Our full line of containers and trailers are specifically designed to accommodate the safe and efficient transport and storage of power ...

Unlike traditional enclosures, our containerized generator enclosures offer enhanced mobility, allowing you to easily transport and relocate your generator equipment.

EK Power Products division excels in designing and constructing custom weatherproof and sound-attenuated generator enclosures, addressing both noise pollution and environmental ...

EK Solar PV container is a container that integrates photovoltaic power ...

Our EK Power Products division specializes in the design and build of custom weatherproof and sound attenuated generator enclosures that eliminate ...
