-----

DTEK and American Fluence completed the construction of the largest energy storage system (BESS) in Eastern Europe. The project will ensure stable electricity supply to ...

Whether it's grid-side storage in Germany, capacity market projects in the UK, or solar-plus-storage systems under construction in ...

HiTHIUM has successfully deployed the largest battery energy storage system (BESS) project in Eastern Europe to date, with a capacity of 55MWh using HiTHIUM's 16 energy storage ...

The EU, UK, Norway, and Switzerland together are expected to reach 100 GW of installed energy storage later this month, according to new analysis launched at the Enlit Europe conference by ...

HiTHIUM has successfully deployed the largest battery energy storage system (BESS) project in Eastern Europe to date, with a capacity of ...

A 25MW/55MWh battery energy storage system (BESS) has been commissioned in Bulgaria, Eastern Europe, by operator Renalfa IPP, using technology provided by Chinese ...

Solarpro, a leading technological provider of solutions for the generation and storage of energy in Europe, has successfully deployed ...

Stationary battery manufacturer Hithium has successfully deployed the largest battery energy storage system (BESS) project in Eastern Europe to date, with a capacity of 55 ...

Hithium has launched a 55 megawatt hours (MWh) battery energy storage system (BESS) project in Razlog,

southwestern Bulgaria. The project, the largest in Eastern Europe, ...

Whether it's grid-side storage in Germany, capacity market projects in the UK, or solar-plus-storage systems under construction in Southern Europe, the demand for battery ...

Hithium, a global leader in energy storage solutions, has announced the successful implementation of the largest BESS project in Eastern Europe.

The EU, UK, Norway, and Switzerland together are expected to reach 100 GW of installed energy storage later this month, according to new ...
