What is a platform shipping container?

A platform shipping container is a type of cargo container that is primarily used for transporting oversized or bulky goods that cannot be accommodated within the standard dimensions of a regular shipping container. It is an open-top container with no roof or walls and has a flat base with a reinforced structure to support heavy loads.

Do federal agencies need to buy security containers?

Since 2014 federal agencies are required to buy security containers using National Stock Numbers in GSA Global Supply via requisition. All items are FOB origin, freight prepaid. This means you will need to pay additional shipping charges for delivery of these items. Do not order containers directly from vendors.

Where can I get help ordering security containers?

Help from GSA with orders: National Customer Service Center. Help from GSA with federal specifications and qualified product list questions: gsasecuritystandards@gsa.gov. DoD lock program support: 800-290-7607. Instructions and resources on how to order security containers.

What size is a platform container?

The most widely used sizes for platform containers are 20ft and 40ft. The dimensions of a 20ft platform container are roughly 6 meters (19.6ft) in length and 0.3 meters (0.98ft) in height, while a 40ft platform container is slightly more than 12 meters in length and 0.6 meters in height.
