How does elecsys France work?

ElecSys France's high power Li-ion batteries consist of an assembly of single cells and each battery pack includes a Battery Management with Interface (BMI) developed completely by ElecSys France, which is supervising the battery operation and monitoring battery parameters via the CAN Bus interfaces.

What are lithium-ion battery storage solutions?

Lithium-ion battery Storage solutions are revolutionizing safety standards across multiple industries. Our storage solutions are indispensable in the automotive sector, where they provide secure storage for electric vehicle batteries and consumer electronics, ensuring the protection of batteries in laptops and mobile devices.

What software does elecsys France provide?

ElecSys France supplies its all battery packs with a special operating software (BMS), display devices, stack controller, power interface and cell interfaces.

Why is France upping lithium production?

After years of deindustrialisation, France is upping lithium production to support battery manufacturing and the green transition.
