The Government of Guyana commissioned its second mega-scale solar farm, the 1.5MW utility-scale solar PV plant at Bartica, Region Seven (Cuyuni-Mazaruni) in March 2023. ...

GEA supported the implementation of a massive electrification project to supply, deliver and distribute 30,000 Solar Home Energy Systems to Hinterland and riverine communities in Guyana.

The plant is part of Guyana's \$83.8 million Utility-Scale Solar Photovoltaic (Guysol) Program, which targets 33 MWp of solar and 34 MWh of storage across eight sites under the ...

The project consists of five independent solar power plants distributed across three administrative regions of Guyana, with a total installed capacity of 18 MW and an energy ...

The GUY SOL initiative, funded by the Guyana/Norway partnership with an estimated investment of US\$83.3 million, aims to diversify Guyana's energy mix. Under the Guyana Utility Scale ...

Guyana has commissioned a 0.6 MW grid-forming solar farm in Leguan, an island in the delta of the Essequibo River on the country's northern coast. The installation, valued at ...

The GUY SOL initiative, funded by the Guyana/Norway partnership with an estimated investment of US\$83.3 million, aims to diversify Guyana's ...

The Government of Guyana commissioned its second mega-scale solar farm, the 1.5MW utility-scale solar PV plant at Bartica, Region ...

This project is Guyana's largest hybrid solar-plus-storage power facility and is expected to provide greater

grid reliability for thousands of residents in the Essequibo region.

The pilot project entails setting up an electric vehicle with accompanying solar panels and energy storage system.

Guyana Power and Light (GPL) is advancing clean energy with new solar PV projects and battery storage, set to benefit 70,000 people and reduce costs.

Guyana Power and Light has launched a tender for an EPC contractor to build three solar plants in Guyana with a combined 15 MWp capacity and 22 MWh of battery storage.
