Where can I buy a solar inverter in Slovakia?

The inverters have been tested and approved for operation in the Slovak power grid and are now available from the official distributor, Photon Energy. Solinteg, backed by renowned company TCL, focuses on cutting-edge solar inverter and battery storage technologies.

Are solinteg solar inverters available in Slovakia?

Solinteg hybrid inverters have been tested and approved for operation in the Slovak power grid and are now available from the official distributor, Photon Energy. Slovakia's solar components market welcomes the introduction of Solinteg's advanced solar inverters.

Who is Slovak solar?

Slovak Solar s.r.o. is a leading photovoltaic wholesaler in Slovakia, Czech Republic and Austria, with a vision to create a sustainable energy future. We started our journey in 2009 with the main idea - to provide companies specialised in the installation of solar systems with access to first-class photovoltaic products, all from one place.

How many solar PV installations are there in Slovakia?

The solar PV installations in Slovakia are mostly attributed to the residential installations with 472 MW of installed solar PV capacity as of 2019. The government is seeing a huge potential for solar energy generation in the country and it is reflected in the growing demand in supply for solar panels for roof installations.

Our core range includes grid connected inverters (1-136 kW), off-grid inverters (3-5 kW), energy storage inverters (3-630 kW), water pump inverters and terminal options.
