Does Brunei need a digital health unit?

Recognising the growing importance and value of digital technologies in healthcare, Brunei's Ministry of Health set up a new Digital Health Unit last year to develop a formal digital health structure and strategy for the nation.

What is a shipping container clinic?

A shipping container clinic is a type of shipping container architecture using intermodal containers (shipping containers) as the structural element of a medical clinic that can be easily deployed to remote regions of the world. Shipping containers are ideal because of their inherent strength, wide availability and relatively low cost.
