What is the telecom market like in Maldives?

The Maldives' telecom market is essentially a duopoly, dominated by two main providers, with a couple of smaller players in niche roles : Dhiraagu - The former incumbent remains the largest telecom and internet provider. It is 52% owned by Bahrain's Batelco and ~42% by the Maldivian government .

Does Maldives have a telecom network?

Providing telecom and internet access to this archipelago has been a significant challenge historically. The country's telecom journey began with a state monopoly: Dhiraagu(Dhivehi Raajjeyge Gulhun) was established in 1988 as the Maldives' first and sole telecom operator .

How does Internet work in the Maldives?

Today the Maldives enjoys a modern telecom infrastructure that belies its small size and challenging geography. High-capacity submarine fiber optic cables link the atolls to international internet backbones, and domestic undersea cables plus microwave links connect even the most remote islands.

Is the Maldives progressing in telecommunications?
