How long does a solar installation warranty last?

Workmanship warranties can differ widely between solar companies, with coverage typically lasting anywhere between 1 to 10 years, depending on your installer. While inclusions vary between providers, most workmanship warranties will cover installation-related issues such as wiring, roof penetrations, and improperly installed components.

What warranties does a solar system have?

Today, most home solar energy systems include three primary coverages: product warranties, performance guarantees, and installation warranties. 1. Product warranties A solar product warranty covers the physical components of your system, such as the panels, inverters, or batteries.

What is a solar warranty & how does it work?

When you install solar, your warranty won't take the form of a single policy, but rather several different coverages offered by your installer and the manufacturers of your solar equipment. Today, most home solar energy systems include three primary coverages: product warranties, performance guarantees, and installation warranties. 1.
