Is it worth buying solar panels in Boston?

Boston receives a decent amount of average daily sunlight, which makes it a suitable location for solar panels. If you don't need to maximize efficiency, you can opt for more affordable panels. Your solar panels can generally produce enough energy to power your whole home in Boston, potentially leading to significant savings on energy bills.

How much does solar cost in Boston MA?

The average price per watt of solar power in Boston, MA is \$3.59/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$18,426 for a 7.33 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

How much does a 6 kW solar system cost in Boston?

A 6 kW solar system will cost about \$17,220 in Boston before incentives. After the 30% federal solar tax credit, this drops to \$12,054, or about \$2.01 per watt. The total cost of a solar system will vary depending on the company you choose, the size of the system, the equipment installed, and how you finance it.

This growth is supported by a network of leading solar panel manufacturers, innovative solar companies, and dynamic supply chains centered in key cities across the state.
