-----  
How many batteries does the base station take?

The Base Station takes four(4) 1.2V,1300mAh nickel-metal hydride (NiMH) rechargeable batteries. Regular alkaline batteries should never be inserted into the Base Station,as they may damage the device. Once you have acquired the necessary NiMH rechargeable batteries,you can follow the steps below to replace them:

How much does a battery system cost?

\$19/month or \$29/month plus tax depending on your plan, billed monthly starting when your battery system is installed. You can see Base's latest plans and Electricity Facts Labels (EFLs) here. [Understanding Your Energy Rate](#)

Does base power have a battery system?

Base Power is currently buying much of its battery technology and the energy it delivers from suppliers while working on its own battery storage systemthat can be installed more quickly. In the years ahead,Base Power also plans to build its own wind and solar farms to supply power.

Do I need to replace my base station's batteries?

If you're not certain which system you have,see the [Which Version of the SimpliSafe® System Do I Have](#) article. You will likely neverneed to replace your Base Station's batteries as they are rechargeable and meant to last. The Base Station takes four (4) 1.2V,1300mAh nickel-metal hydride (NiMH) rechargeable batteries.

Together, they formed Base Power, a company that sells and installs residential storage batteries at a super low price -- \$2,000 in most cases.
