Can a shipping container be modified?

There are many modifications and alterations we can make to shipping containers. Each seacan project needs to be quoted individually. Modification prices will vary according to material cost fluctuations, logistics and other factors. This is meant as a guide if you are considering altering or modifying a shipping container.

What are collapsible shipping containers?

While shipping containers are typically thought of as containers to be used for shipping, collapsible shipping containers bring a whole new angle. Collapsible shipping containers are very similar to regular shipping containers. The difference in the collapsible ones is that they are just that, collapsible.

What are the benefits of collapsible shipping containers?

Collapsible shipping containers come with many benefits. You can always feel safe and secure inside even if you are surrounded by chaos. The insulation helps protect against noise and keep a quiet environment for you to work in. These containers are made to be fire resistant, and insulated against extreme temperatures.

How much does it cost to move a shipping container?

Within 50 miles of our headquarters in Sanger, Texas, the cost to move a shipping container is \$375; after that, each extra mile is \$4.50, depending on any other circumstances that can effect dropoff. As long as it's a flat, dry surface, we may drop off your container anywhere you need it, right on the ground.
