Where can I buy a hybrid inverter?

Thanks to our cooperation with Europe's leading distributors in the solar and photovoltaic trade, we at Solartraders can guarantee permanently low prices. In our range you will find hybrid inverters from all leading manufacturers in the industry, such as Huawei, SMA or Fronius.

What is a hybrid solar inverter?

Typically, hybrid solar inverters can operate and manage batteries of different technologies, performing the function of back-up (backup system) when there is no solar generation or grid. Hybrid inverters can be grid-connected or stand-alone (without the need for a grid to synchronise with).

Which solar inverter is best?

SMA Solar Technology - As the German market leader, SMA offers innovative hybrid inverters with high efficiency and comprehensive monitoring functions, ideal for demanding PV systems. Fronius - Fronius impresses with reliable and durable inverters that are easy to install and integrate into energy storage systems.

What types of inverters are available?

In our webshop you will find both single-phase and three-phase hybrid inverters, with 1, 2, 3, 5 or 9 MPPTs and different numbers of strings. All capacity classes are represented, whether small with 2, 5 or 10 kW, medium with 15, 20, 25 or 30 kW, or large with 50 or up to 100 kW, so that even large projects can be easily realized.
