What is 5G & how does it work in Israel?

The fifth generation of cellular networks, 5G, officially launched in Israel on Tuesday. It offers customers faster browsing speeds on their smartphones - if they can connect to it. Following some setbacks over tenders and upgrades, the network officially launched across the country.

Who has the best 4G/5G network in Israel in 2025?

Partner and Cellcom have the strongest mobile network and the best 4G/5G coverage in Israel in 2025. Pelephone has a great 5G network in Israel, Hot Mobile has the weakest 4G/5G mobile data network in Israel in 2025.

How many 5G sites are there in Israel?

The first offers 500 gigabytes of Internet surfing for NIS 60 per month for five years. The second offers a terabyte (1,000 GB) for NIS 70 per month for five years. Together, the providers say they have installed 250 5G sites throughout Israel, with more being added regularly.

How will Israeli telecommunications market change?

The two moves we are advancing today, bolstering the inventory of frequencies for the cellular companies along with lowering the bar for entry, and paving the way for new players to enter the market, are going to continue the dramatic changes in the Israeli telecommunications market, and they will improve the quality of the cellular network.

The operational targets include operating a minimum bandwidth of 45 MHz and activating VoLTE. Grants in the amount of up to NIS 200 million - operators will be required to ...
