-----  
What is a 36V lithium battery pack?

36V lithium battery packs come in various capacities and types, including lithium-ion and LiFePO4 options. These batteries are suitable for a range of applications such as electric bikes, solar storage, and recreational vehicles.

What battery cells do you use for a 36V battery pack?

We use two types of battery cells for our 36V lithium battery packs: the 18650 and the 21700. 18650 Battery Cell: A reliable and well-established option, offering a good balance of capacity and power, widely used in various applications.

What is a 36V 18650 battery pack?

Each 36V 18650 battery pack is packed with customized battery holders to ensure their stability and efficiency. Our 18650 10S 36V battery packs are utilized for 36V e-bike batteries and cleaning equipment but are not limited to boats, water monitor systems, and farm robots.

Are 36V lithium-ion batteries safe?

Safety concerns with 36V lithium-ion batteries include risks of overheating, overcharging, and thermal runaway if the battery management system (BMS) is not functioning correctly. It is crucial to use quality chargers, monitor battery health, and ensure proper ventilation and protection to mitigate these risks.

Large Power manufactures high-performance, high-quality rechargeable 36V lithium ion battery & 36V LiFePO4 battery pack for all industry applications.

Power up your world with top-quality 36V lithium batteries for bicycles, scooters, and golf carts. Shop now on eBay for unmatched performance!

Our 36V Lithium Battery series offers a balanced combination of power, runtime, and compact size, making it ideal for e-bikes, electric scooters, industrial tools, and portable energy systems.
