Gham Power, in collaboration with Practical Action and Swanbarton, has been awarded a project by the United Nations Industrial Development Organization (UNIDO) to ...

As Nepal seeks to reduce its reliance on imported fossil fuels and hydropower vulnerabilities, this 156MW lithium-ion battery facility demonstrates how modern energy storage solutions can ...

Enter the Nepal Energy Storage Base initiative - a \$1.2 billion national program approved last month to deploy 30 storage facilities by 2027 [1]. The strategy combines three complementary ...

This groundbreaking project will replace polluting diesel generators with a large-scale battery storage system powered by solar energy.

Gham Power, in collaboration with Practical Action and Swanbarton, has been awarded a project by the United Nations Industrial Development Organisation (UNIDO) to ...

This pioneering project is set to transform industrial energy use by replacing polluting diesel generators with a large-scale battery storage system powered by solar energy.

Nestled in the Himalayas, Kathmandu faces unique energy challenges. With growing urbanization and reliance on intermittent renewable sources like solar and hydropower, the lithium battery ...

The Kathmandu Battery Energy Storage System's project, led by Gham Power, aims to install one of Nepal's largest energy storage systems, with a ...

Gham Power, in collaboration with Practical Action and Swanbarton, has been awarded a project by the United Nations Industrial ...

This pioneering project is set to transform industrial energy use by replacing polluting diesel generators with a large-scale battery ...

"This transformative project will revolutionize industrial energy use by replacing polluting diesel generators with a large-scale, solar-powered battery storage system," said Gham Power.
