How many 5G networks are there in the Middle East?

This includes eight in the Middle East and 10 in Africa. The first full commercial 5G mobile service in the MEA region was introduced by Etisalat in the United Arab Emirates (UAE) in May 2019, followed closely by its domestic rival Du the following month.

Which countries have the best 5G coverage?

The really big standout is India which seems to have blanketed the country in 5G coverage within just the last 2 years. This contrasts strongly with its neighbours like Pakistan, Myanmar and even large parts (of mostly sparsely populated) China. Europe also has good coverage up until you reach Ukraine and Belarus and into Russia.

Why are 5G spectrum decisions complicated in Kenya?

ed to operators for use on LTE technologies. 5G spectrum decisions in Kenya were complicated by a previous award of 700 MHz to JTL, as well as further decisions to award the 700 MHz band to two operators or a wholesale access network. By 2018, at least ten companies were bidding

Who is the largest 5G provider in Saudi Arabia?

The largest 5G provider in Saudi Arabia--and the MEA region--is Saudi Telecom Company (stc), which claimed 5.6 million 5G subscriptions by December 2022. Having inked network rollout agreements with equipment suppliers like Huawei, Nokia, and Ericsson, stc has more than 75 cities and towns in its 5G footprint.
