An AIFFP loan and grant package has supported Solar Pacific Pristine Power to build Palau's first solar and battery energy storage facility, key to its transition to renewable energy. ... which ...

KOROR, Palau (July 10, 2025) -- Australia has pledged \$16.4 million to support the next phase of Palau's transition to renewable energy, with ...

AIFFP is investing in Palau's grid upgrades and battery storage to enable more solar power, reduce diesel reliance and support Pacific climate leadership.

SMA, in collaboration with Solar Pacific Energy Corporation (SPEC), a subsidiary of Philippines-headquartered renewable energy company Alternergy, has successfully ...

Palau's two storage projects demonstrate how modern energy systems can transform island economies. By combining solar optimization with smart storage, communities achieve both ...

Palau's ambitious renewable energy transition relies heavily on innovative energy storage solutions. This article explores how advanced battery storage systems are transforming the ...

The Palau Solar Battery Project will be the largest such project in the Western Pacific. It will lessen Palau's imported fuel dependency, a major step towards its ambitious goal of 100%.

The USD 29 million project, jointly owned by SPEC and its listed parent Alternergy, will meet more than 20% of Palau's energy needs. SPEC was awarded a long-term power ...

The USD 29 million project, jointly owned by SPEC and its listed parent Alternergy, will meet more than 20% of Palau's energy needs. ...

Major energy storage project in Palau
