Despite severe cold, high temperature, high wind and other multiple challenges, Zhiguang energy storage rose to the challenge, delivering green new energy power in the vast Inner Mongolia ...

One of the state-approved large-scale new energy bases, the project in Ordos city of Inner Mongolia will include 8 gigawatts (GW) of solar power installations, 4 GW of wind power, 4 ...

The groundbreaking ceremony for the Ordos Gushanliang 3GW/12.8GWh Energy Storage Station Project was held on 28 June, marking a significant milestone in Inner ...

On June 26, the 1,000 MW / 6,000 MWh power-side energy storage project in Chayou Zhongqi, Ulanqab City, Inner Mongolia officially commenced construction. The project ...

This project is the first solar power generation project with battery energy storage system in Mongolia attached, which was awarded to the JGC Group in consortium with NGK Insulators ...

The project, a new global benchmark for the scale and grid-connection speed of energy storage clusters, is designed to significantly boost the local grid's capacity to absorb ...

The implementation of this project is not only a key measure for Ulanqab City to build a new energy system, but also an important practice for Inner Mongolia Autonomous Region ...

On September 13, Inner Mongolia Alxa Hi-Tech Zone held a signing ceremony for energy storage and industrial chain equipment manufacturing demonstration project.

This project is the first solar power generation project with battery energy ...
