The 146MW Tanahu project isn't your grandpa's pumped storage. Its AI-powered turbines predict rainfall patterns using Himalayan glacier melt data, achieving 89% round-trip efficiency.

Organization (UNIDO) to install one of the largest energy storage systems in Nepal, with a total battery capacity of 4MWh will help industries and businesses minimize their diesel ...

Gham Power, in partnership with Practical Action and Swanbarton, has secured a project from UNIDO to install a 4 MWh energy storage system ...

Representing Nepal at the launch were Nepali Ambassador Bharat Kumar Regmi, Gham Power CEO Anjal Niraula, and teams from Swanbarton and Practical Action. This ...

Gham Power, in collaboration with Practical Action and Swanbarton, has been awarded a project by the United Nations Industrial Development Organization (UNIDO) to ...

Gham Power together with its partners Practical Action and Swanbarton have officially been awarded a project by United Nations Industrial Development Organization (UNIDO) to install ...

Gham Power, in partnership with Practical Action and Swanbarton, has secured a project from UNIDO to install a 4 MWh energy storage system in Nepal, one of the largest in the country.

"This transformative project will revolutionize industrial energy use by replacing polluting diesel generators with a large-scale, solar-powered battery storage system," said ...

Gham Power, in collaboration with Practical Action and Swanbarton, has been awarded a project by the United Nations Industrial ...

Gham Power, in collaboration with its partners Practical Action and Swanbarton, has been awarded a project by the United Nations Industrial Development Organization (UNIDO) ...

"This transformative project will revolutionize industrial energy use by replacing polluting diesel generators with a large-scale, solar ...

This pioneering project is set to transform industrial energy use by replacing polluting diesel generators with a large-scale battery storage system powered by solar energy.
