What does Nordic batteries do?

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. At Nordic Batteries we focus on what is important: safety, reliability and performance.

What is the largest battery energy storage project in the Nordics?

SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics. The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower.

Are Nordic batteries looking for a development engineer?

Nordic Batteries are seeking a development engineer for mechanical construction and system design. Factor 47 is operative! The pilot line where Nordic Batteries will produce their first battery modules is now officially open after the visit from former Prime Minister Erna Solberg where she cut the banner to kick it off.

Is Northvolt a good energy storage company?

Northvolt, as one of the top 10 energy storage companies in Sweden, founded in 2015 by former Tesla executives, is a Swedish battery manufacturer specializing in lithium-ion technology for electric vehicles and energy storage.

Nordic Batteries manufactures its eENERGY high-energy battery modules and ePOWER high-power battery modules in Norway using battery cells from Norwegian ...

Nordic Batteries manufactures its eENERGY high-energy battery modules and ePOWER high-power battery modules in Norway ...

Nordic energy storage batteries offer effective solutions for renewable energy integration, providing reliability and cost-effectiveness, as well as sustainability advantages.

“Think of supercapacitors as the sprinters of energy storage,” says Dr. Lena Fjellström, project lead at Nordic Energy Research. “They’re not here to replace marathon ...

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid ...

This article will introduce the top 10 energy storage companies in Sweden and explore their technological advantages and marketing strategies.

Our battery energy storage solutions are designed, developed, and manufactured in Finland. From inverters to control and protection systems, everything is crafted locally to ensure high ...

Nordic Batteries AS, founded in 2014 in Norway, specializes in advanced battery modules, packs, and energy storage systems for industrial sectors including construction, maritime, defense, ...

Nordic energy storage batteries offer effective solutions for renewable energy integration, providing reliability and cost-effectiveness, ...

Form Energy is at the forefront with a new class of cost-effective energy storage systems. Using iron-air batteries, Form enables a fully renewable electric grid year-round.

It blended regional talent with abundant hydro and wind power to create an efficient, renewable-powered battery plant (Savage, 2025). Many now fear that future investment in the ...

SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics.
