---

Oceania is a geographical region including Australasia, Melanesia, Micronesia, and Polynesia. Outside of the English-speaking world, Oceania is generally consid...

Oceania is a region made up of thousands of islands throughout the Central and South Pacific. It includes Australia, the smallest continent in terms of total land area.

Oceania is the smallest continent in land area and the second-least populated after Antarctica. It is home to Earth's third-largest remaining area of tropical rainforest, which covers much of the ...

Oceania is a geographical (and geopolitical) region consisting of numerous countries and territories--mostly islands--in the Pacific Ocean. The exact scope of Oceania varies--some ...

Oceania is the collective name for the islands found throughout most of the Pacific Ocean. It traditionally is divided into four parts: Australasia (Australia and New Zealand), ...

Oceania, or the "marine continent", is a region that is made up of thousands of islands. It includes four main regions: Australasia (Australia and New Zealand), Melanesia, ...

Oceania is sometimes described as a continent; however, it is a vast region where the waters of the Pacific Ocean -- rather than land borders -- separate nations. Indeed the only land border ...
