Where can I buy off-grid solar power systems?

Shop for off-grid solar power systems and kits online from SunGoldPower. Embrace sustainable living and harness the power of the sun with our reliable products.

What is a DIY off-grid solar kit?

Deliver power to remote locations with our DIY off-grid solar kits. These kits contain the components you need to install a fully self-sufficient off-grid solar system, including solar panels, an off-grid inverter, and mounting materials. We'll also customize your kit with a battery bank sized to meet your storage needs.

What are the components in an off-grid solar panel kit?

Our off-grid solar panel kits include: Your Batteries and Your Power Utility. Batteries make off-grid solar possible by storing the energy generated for later use. Without access to the utility grid, these components are essential.

How much does a 60kW Solar System cost?

The lowest cost for a 60kW solar system ranges from \$1.07 to \$1.80 per watt. Buy a 60kW solar kit with the latest, most powerful solar panels, module optimizers, or micro-inverters.

As long as a truck can get to the plot of land, we can drop your container. Now you have the option to go fully off grid with a few other add-ons, directly from Bob's Containers.

Create an off-grid solar system and use renewable energy remotely without a company with off-grid solar power systems. Build your off-grid solar kit today!
