-----

We specialize in hybrid and off-grid solar systems tailored for the realities of Panama's power infrastructure--offering reliable power, lower bills, and peace of mind.

As climate disasters increased 37% last year according to WMO reports, mobile hybrid solar container projects have emerged as the portable chargers for our energy-starved world.

Casa Solution Real Estate continues to guide buyers interested in sustainable, off-grid, and hybrid living solutions throughout Panama, from the Pacific coastlines of Veraguas to ...

This solar-powered system offers an innovative solution for homeowners seeking reliable and sustainable energy off the grid. The 20KWH lithium battery stores excess energy ...

Recent projects in Dari Province achieved 92% renewable penetration using hybrid systems combining solar panels with advanced flow batteries - all housed in weatherproof steel boxes.

The containerized mobile foldable solar panel is an innovative solar power generation device that combines the portability of containers with the renewable energy characteristics of solar panels.

Our projects span from Honduras to Panama, showcasing our ability to deliver top-tier off-grid solar systems that cater to the specific needs of these remote locations.

Data Logging Stick allows you to receive information from solar power system, in order to keep you informed about the situation of your PV system, and the atmosphere conditions, ...

The solar array powers all appliances, lighting, air conditioning and systems on the island, switching off at dusk to run only silent battery power at night. The solar array will turn on at ...

Designed for off-grid farms, mobile laboratories, and small construction sites. The 10ft format with 40kWh storage offers stable green energy for medium-duty tools, lighting, and refrigeration in ...
