-----

Portuguese energy firm Galp and Powin, a US-based energy storage integrator, completed the commissioning and injected the first electrons of stored energy to the grid from ...

Portugal's battery storage boom steadies prices, slashes blackouts and opens tech roles. Discover how new policies could reshape ...

Portuguese energy giant GALP has announced construction of five battery projects, with a total capacity of 74 megawatts (MW), to store solar energy in Spain and Portugal.

The renewable energy landscape in Portugal is moving into a new phase, marked by stronger commitments from international investors ...

Hyperion Renewables, in partnership with Omexom Portugal and advanced battery manufacturer Saft, has begun construction of Portugal's first utility-scale battery energy ...

The 48 battery containers planned at the project, which Hyperion submitted to the DGEG in 2019, would each contain 5,015 kWh ...

Global energy storage supplier Powin LLC and Portuguese integrated energy company Galp have partnered to install a utility-scale battery energy storage system (BESS) in ...

The batteries will allow Galp to store the solar energy produced in periods of high generation, and to deploy it during periods of high demand, maximizing the energy's value.

Galp has kicked off construction on five new battery energy storage system (BESS) projects in Spain and
