Who has installed a battery energy storage system in Portugal?

System integrator Powin has been enlisted by oil, gas and renewable energy firm Galp to install a battery energy storage system (BESS) at a PV plant in Portugal, Powin's first in Europe.

How much money will Portugal spend on energy storage projects?

This included six projects from Spain's Iberdrola, which secured nearly EUR 20 million in public funding. Portugal's Ministry of Energy has announced that it has allocated EUR 100 million (\$104.2 million) to 43 energy storage projects which should be installed by the end of 2025.

What does Portugal's energy storage tender mean for the energy transition?

Portugal's government has announced the outcome of an energy storage tender that will see the installation of 500 MW of energy storage capacity to support the country's energy transition. Energy storage battery. Photo by Anna Vasileva

How many projects were selected in Portugal's 2025 energy storage procurement?

A total of 43 projects were selected from 79 applications in Portugal's 2025 energy storage procurement. This included six projects from Spain's Iberdrola, which secured nearly EUR 20 million in public funding.

Portuguese energy firm Galp and Powin, a US-based energy storage integrator, completed the commissioning and injected the first electrons of stored energy to the grid from ...

Discover innovative mobile energy storage solutions with Power Edison. Revolutionize utility operations with cutting-edge technology and dynamic power.

The Portuguese government plans to invest up to 400 million euros (\$466 million) to improve grid management and boost battery storage following a massive blackout across ...

Portuguese energy firm Galp and Powin, a US-based energy storage integrator, completed the commissioning and injected the first ...

The tender was launched in August 2024 and preliminary results were released last week. The Minister of Environment and Energy, Maria da Graça Carvalho, said on the ...

System integrator Powin has been enlisted by oil, gas and renewable energy firm Galp to install a battery energy storage system (BESS) at a PV plant in Portugal, Powin's first ...

Aquila Clean Energy has secured two Battery Energy Storage System (BESS) projects in Portugal's latest auction (Investimento RP-C21-i08 - Flexibilidade da Rede e ...

The successful projects will together add at least 500 MW of energy storage to the public electricity grid. The call for proposals, which is part of the country's Recovery and ...

Global energy storage supplier Powin LLC and Portuguese integrated energy company Galp have partnered to install a utility-scale ...

With solar farms sprawling across Alentejo and wind turbines dancing off the Atlantic coast, Portugal's secret sauce lies in its cutting-edge energy storage solutions.

The successful projects will together add at least 500 MW of energy storage to the public electricity grid. The call for proposals, which ...

Looking ahead to 2026, we're piloting second-life EV battery arrays with Portuguese automaker AutoEuropa. Early tests show 70% cost reduction compared to new cells - perfect for non ...
