What is a battery storage cabinet?

These Australian made Battery Storage Cabinets are specifically designed to store Li-ion batteries in a cool, dry, and secure environment, significantly reducing the potential for battery fires. Storemasta Battery Storage Cabinets offer a fast, cost-effective solution to mitigate lithium-ion battery fire risk, with models ranging from 15 to 250L.

What storage solutions are available for battery energy batteries?

Our space efficient storage solutions for batteries are designed to accommodate vertically or horizontally installed Battery Energy batteries. Horizontal rack configurations offer a minimum 600mm x 600mm footprint of and can cater for up to eight fully adjustable shelves.

What is a battery charging cabinet?

Our battery charging cabinets provide a safe, cool, and dry environment to store and charge Li-ion batteries. They are specifically designed to minimise risks associated with Li-ion battery charging, ensuring a safer workplace.

Do battery storage cabinets have fire suppression?

As part of our Battery Management range, these quality storage cabinets can also be equipped with fire suppression. These Australian made Battery Storage Cabinets are specifically designed to store Li-ion batteries in a cool, dry, and secure environment, significantly reducing the potential for battery fires.
