-----  
How much does a 20 ft shipping container cost?

The current average used 20 ft shipping container costs between \$1,500 and \$3,000, and a new 20 ft container costs between \$2,500 and \$5,000. Used 40ft shipping containers cost on average \$2,000 to \$4,500 for standard and \$2,500 to \$5,000 for a 40 ft high cube, while new 40ft containers cost \$3,500 to \$6,500 and \$4,000 to \$7,000, respectively.

How long do used 20 foot containers last?

Used 20 foot containers have been retired from international shipping after an average of 15-20 years at sea.

Is a 20 foot container better than a 40 ft container?

When comparing 20-foot and 40-foot containers, the choice often depends on the needed space and budget. A 20-foot container is more affordable and sufficient for those with limited space requirements.

What is a 20ft container used for?

Since they were originally manufactured to carry small volumes of heavy cargo (e.g. machinery, cement, and steel), 20ft used containers are ideal for storing large, heavy items such as metals, seasonal vehicles, and farming and construction equipment. Looking for containers to build a home, office, or gym?
