What is a temporary power distribution box?

These temporary power distribution boxes feature 1, 3 or 4 adjustable circuit breakers, with a range of amperage and voltage ratings. The Load Master™ Series portable power distribution racks are engineered with a compact, space-saving design ideal for in-use operation, transport, and storage.

Are Lex portable power distribution boxes waterproof?

Lex products portable power distribution units have NEMA 3R, 3R Weather Resistant or 3R Rainproof environmental ratings depending on the distro box. The indoor distro boxes have a NEMA 1 Indoor environmental rating, like the versatile 100 amp 3 phase PowerHOUSE (TM) Pagoda portable distribution box.

How many amps does a power distribution box have?

Our power distribution boxes range from 20-800 Amps and are well known for being durable, long lasting and safe. Load Master (TM) Series portable power distribution boxes are the first in the industry to feature outputs with adjustable current ratings to match specific application loads.

How is a portable power distribution box inspected and tested?

Each portable power distribution box is inspected and tested in accordance with EN 60 439-1; 1994 table 7, A copy of the test certificate is provided with each unit. This test data is also preserved and can be retrieved for future reference.
