Riga Liquid Cooling Energy Storage Project

The new Belize Energy Resilience and Sustainability Project will deploy state-of-the-art battery energy storage systems across four strategic locations in the country, marking a significant ...

Finland has announced plans to build up to three small-scale pumped storage hydropower plants in the northern part of the country to bolster its green transition and enhance energy balance.

Join us on an exclusive tour of Latvia"s largest energy storage facility at Targale Wind Park, powered by Hoymiles" cutting-edge technology!

Riga Energy Storage Power Production stands at the intersection of technological innovation and sustainable energy transition. By addressing grid challenges and leveraging cutting-edge ...

Hanersun has announced the commissioning of a 1.15MWh commercial energy storage project in the Latvian capital Riga. The project, featuring five units of the company"s ...

The first BESS projects are being implemented in Latvia and at Latvenergo production sites - starting with the smaller-scale BESS at Latvenergo AS CHPP-1 and ...

Hanersun has announced the commissioning of a 1.15MWh commercial energy storage project in the Latvian capital Riga. The ...

Amsterdam, January 12, 2024 - GIGA Storage is pleased to announce the development of the Green Turtle project, a groundbreaking energy storage project with 600 MW of power and ...

That"s where the Riga Pumped Hydro Energy Storage Project comes in, aiming to become Latvia"s ultimate

energy safety net. Nestled in the Daugava River basin, this EUR800 ...

As we approach Q4 2025, Riga"s storage capacity is projected to triple, potentially eliminating the need for one natural gas peaker plant entirely. Now that"s what we call powering progress!

The liquid-cooled energy storage system integrates the energy storage converter, high-voltage control box, water cooling system, fire safety system, and 8 liquid-cooled battery packs into ...
