Why did the US impose new anti-dumping tariffs on solar panels?

The US has imposed new anti-dumping tariffs on solar panels imported from Southeast Asia, tightening restrictions on Chinese manufacturers accused of using these countries to avoid fair trade rules.

Will Antidumping Measures affect solar project development in the United States?

The return of antidumping measures for components sourced from Southeast Asia could have a significant impact on solar project development in the United States. Photo: Tobias Kleinlercher/Wikipedia From pv magazine 6/24 AD/CVD tariffs for US-imported solar components from Vietnam, Malaysia, Thailand, and Cambodia have been paused since 2022.

What are the anti-dumping and countervailing duties on solar panels?

The countervailing and anti-dumping duties are in response to a petition that a group of seven solar panel manufacturers called the American Alliance for Solar Manufacturing Trade Committee filed with the US government in April 2024.

Are crystalline solar cells affected by US anti-dumping duties?

The US Commerce Department set final countervailing and anti-dumping duty rates on Monday for crystalline solar cells and modules imported from four southeast Asian countries. Cells and modules from Vietnam, Malaysia, Thailand and Cambodia are affected. Importers have already been posting cash deposits for the duties since last fall.
