For the latest updates and more information, visit our website: <https://kalelabellium.eu>

With a modular, CTP-based design, it supports flexible capacity expansion and streamlined installation. Equipped with real-time monitoring, fault diagnostics, and robust safety ...

Discover the critical role of efficient cooling system design in 5MWh Battery Energy Storage System (BESS) containers. Learn how different liquid cooling unit selections impact ...

The 20 ft liquid cooling container system delivers 5 MWh of reliable power through advanced thermal management, engineered for safety, efficiency, and extended cycle lifespan in ...

• Compatible with Ethernet, RS485 and other communication interfaces and mainstream standard protocols, can also provide customized solutions. • Support EMS scheduling and participate in ...

Variable-frequency liquid cooling system with modular adjustable pipelines ensures uniform temperature, reducing auxiliary power consumption and extending system lifespan. Complies ...

The liquid cooled system is equipped with a circulation pump based on the resistance of the water circuit and battery packs to ensure that the liquid flow through each liquid-cooled battery pack ...

Integrated BMS, liquid cooling, and optional perfluorohexanone + water fire protection, paired with DC 1331.2V rated voltage for seamless operation. Pre-assembled 20ft container design ...

The liquid cooling system maintains a consistent temperature across the battery cells, preventing overheating and ensuring stable performance. This not only extends the battery's service life ...

The high economic efficiency and long-lasting performance make it an investment that adds value in the long

run. From ensuring stable power supply for industrial parks to optimizing energy ...

We take pride in offering high efficiency solar panels, top-quality solar inverter and solar battery, advanced integrated solar systems, and valuable energy storage solutions to our customers.
