-----

Turkish renewable energy producer Fortis Energy has obtained a construction permit for a 270 MW solar project combined with a 72 MWh battery energy storage system in ...

Turkish renewable energy company Fortis Energy has announced plans to construct a 110 MW solar power plant near the town of Sid in northwestern Serbia. The Erdevik solar project will ...

Serbia is set to host one of the largest integrated solar and battery storage projects in Southeast Europe, marking another milestone in the region's renewable energy expansion.

The project, located in Sremska Mitrovica, Serbia, is set to become one of the largest solar-plus-storage projects in south-east ...

Turkish renewables company Fortis Energy announced plans to build a 110-MWp solar farm, coupled with 31.2 MWh of energy storage, ...

Delivering the utmost flexibility to the Serbian government, the Large-Scale Solar and Battery Energy Storage Project being developed by UGT Renewables will be owned and operated by ...

This hybrid solar and storage project represents a strategic investment aimed at enhancing grid reliability, integrating renewable energy, and reducing dependence on fossil ...

Turkish renewables company Fortis Energy announced plans to build a 110-MWp solar farm, coupled with 31.2 MWh of energy storage, in the northern Serbian municipality of Sid.

Delivering the utmost flexibility to the Serbian government, the Large-Scale Solar and Battery Energy Storage

Project being developed by UGT ...

The project, located in Sremska Mitrovica, Serbia, is set to become one of the largest solar-plus-storage projects in south-east Europe, with a total solar PV capacity of ...

Investments in battery energy storage systems (BESS) is ramping up around the world and Serbia is now making its first steps.

The project will (i) introduce the first-of-its-kind near-shore marine floating solar photovoltaic power plant; (ii) install a battery energy storage system (BESS) and transmission grid with smart ...
