-----

Mexico is playing catch-up, with the world having installed around tens of megawatts of non-pumped-hydro energy storage sites by 2020, according to the United States ...

Through specific regulations, mandatory requirements for renewable energy-integrated energy storage, and long-term planning, Mexico is becoming a benchmark case for ...

Mexico's National Commission for Regulatory Improvement (CONAMER) has published a draft agreement outlining the requirements ...

State-owned utility CFE is constructing a 190MW battery storage unit co-located with a 1GW solar PV project, which is due for completion in 2028 (Energy Storage News, 2023).

Mexico is seeing a surge of large-scale solar and battery storage proposals across multiple states following an October decree that ...

Mexico's solar PV capacity to reach 37.8GW by 2035, forecasts GlobalData Mexico's solar PV growth is supported by long-term planning under PLADESE 2025-2039 and stricter ...

Mexico has awarded 3.3GW of renewable energy capacity, of which solar PV will account for 2.6GW of capacity.

Mexico's National Commission for Regulatory Improvement (CONAMER) has published a draft agreement outlining the requirements for obtaining a generation permit for ...

New energy law boosts solar, storage, and EV adoption with simplified permits and major grid investments through 2030, writes Miguel Gomez Herrera.

Mexico is playing catch-up, with the world having installed around tens of megawatts of non-pumped-hydro energy storage sites by ...

Mexico is seeing a surge of large-scale solar and battery storage proposals across multiple states following an October decree that sets clearer rules for private energy investments.

Residential Storage: Small-scale systems for solar energy storage, backup power, and self-consumption in Mexico. Commercial and Industrial Storage: Energy management ...
