IP67 waterproof protection, Alloy aluminum and ABS materials provide better airtightness and explosion-proof performance. This allows the solar light to work well in rainy or ...

Our EVO line offers an all-in-one solar street light system with easy installation and operation. It includes a versatile bracket that fits any square or round pole.

Introducing the 40 Watts LED Solar Street Light, your new go-to for versatile and resilient solar illumination. This beacon of brightness thrives under any weather conditions, making it a ...

CAPE features high-performing LEDs fueled by solar energy and a lithium LifePo4 battery featuring a compact sturdy design. Our CAPE is constructed to resist harsh environments and ...

Selecting the appropriate wattage for a 6-meter solar light installation is driven by numerous critical factors, including the height of installation, the necessary brightness, the ...

The Truelite 4GEx smart solar lights are optimized and recommended for applications up to 6-meter pole height, for perfect lighting in small roadways, pathways, and area lighting applications.

40-Watt Solar-Powered LED - Provides 6,000 lumens of crisp, 5000K daylight to ensure superior brightness for streets, gardens, and pathways, promoting safety and security.

Selecting the appropriate wattage for a 6-meter solar light installation is driven by numerous critical factors, including the height of ...
